Guide for Authors_Editing Instruction

This is the package "ecrc-egypro" for generating CRC journal articles using the Elsevier LaTeX document class elsarticle.

The package incorporates customisations for the Elsevier CRC journal Energy Procedia

This version 1.0 dated 04 April 2017

****

The following files are included:

* The elsarticle document class, elsarticle.cls

* The documentation, elsdoc.pdf

* A bibliographic style file for the havard reference style, elsarticle-harv.bst

* The package file for Elsevier CRC, ecrc.sty

* Sample journal logo files elsevier-logo-3p, SDlogo-3p (in PDF and PS format)

(All the above are also available at http://www.elsevier.com/latex)

* A template manuscript file, EGYPRO-AIT_2017-template.tex

To use:

1. Unpack all the files into the same folder

2. Edit the manuscript file EGYPRO-AIT_2017-template.tex according to the instructions in that file, and save with a new name

3. Compile with PDFLaTeX or LaTeX (and BibTeX if desired)

****
* Important note on usage

----

* Files using ecrc should normally be compiled with PDFLaTeX *

* Using standard LaTeX should work, but may produce clashes *
